I LOVE YOU RITUALS

Human connection creates neural connections in the brain. Our brains are shaped by our loving relationships. The health of a child's relationships with others is the vital link to academic success. I Love You Rituals are activities that provide unconditional acceptance, sensory integration, caring touch and messages of hope for children. In just minutes a day, these powerful rituals:

- Promote learning and literacy
- Increase attention span
- Decrease power struggles
- Increase cooperation
- Enhance self-esteem through
- permanent brain chemistry changes
- Integrate the brain
